Working Groups

Collaboration is at the heart of what we do. Our Working Groups consist of representative members of the industry, concentrating on a stream of work relating to the development, implementation or maintenance of Standards.

Process and Standards Group (PSG) 1

Providing detailed Governance of the evolution of Criterion Standards.

The Objectives of PSG are to:

- 2
 - Undertake research to investigate particular business problems and to research feasible solutions to these business problems.
 - Manage the Programme Plan Workstreams and prioritise the work within these Workstreams.
 - Make recommendations for approval by the SaGE on:
 - development of new Standards for new business areas;
 - development of new major versions of Standards;
 - new Business Developments;
 - implementation of Standards and new Business Developments;
 - Manage the development of new minor versions of Standards.
 - Manage the Change Request Process.
 - Maintain and review the operations of PSG and Business Project Working Groups.
 - Provide direction to Project Working Groups in resolving scope, working with PA and FBS and conflict resolution.
 - Promote the benefits and use of the PA and FBS.
 - Act as a conduit for networking and discussions relating to Industry business problems and Industry initiatives.
